

# SEO Success

The company is a local plumbing & HVAC service chain

## Before SEO

A plumbing and HVAC chain came to us in April 2017 with some online presence. They wanted to improve their local presence by increasing organic rankings and traffic to their website and increase clientele. At the time they signed on for our SEO services, they had just 10 keywords ranking on the first page of major search engines.

## Our Approach

- We identified how potential customers were searching through extensive keyword research.
- We designed and implemented an SEO campaign that included on-page and off-page optimization around their targeted keyword terms.
- We ensured that all names, addresses, and phone numbers were correct, complete and consistent across key sites, including top tier directories such as Google My Business, Apple Maps and Bing Local.
- We developed and distributed SEO friendly content on relevant websites.
- We optimized Facebook Fanpage.
